

WEEK 8 PROJECT REPORT

Ludo Star Game Using Java

Student Information

Name: Maisha Jaman Mahi

ID: 11240321722

Project Title: Ludo Star Game

Course: Software Development I

Week 8

1. Introduction

In Week 8, the main focus was adding game enhancements to improve the overall gameplay and user experience. Different visual and game-related features were added to make the Ludo Star Game more interactive.

2. Objective

The main objectives of Week 8 were:

- Add game animations.
- Add sound effects.
- Display game notifications.
- Add score and winner display.

3. Week 8 Work Completed

During Week 8, the following tasks were completed:

- Added animations to the game.
- Added sound effects for game actions.
- Implemented game notifications.
- Added score display.
- Added winner display.

4. Coding Progress

The game enhancement features were implemented successfully. These features improved the interaction and presentation of the Ludo Star Game.

Current implemented features:

- Game animations
- Sound effects
- Game notifications
- Score display
- Winner display

5. Challenges Faced

- Managing animations with game actions.
- Adding sound effects without affecting gameplay.
- Displaying notifications and winner information correctly.

6. Conclusion

Week 8 focused on improving the Ludo Star Game by adding animations, sound effects, notifications, and score/winner displays. These enhancements made the game more interactive and complete.
